

2017 Big Table Farm Laughing Pig Rosé

575 cases produced

unfined and unfiltered

release date April 17, 2018

We made the 2017 Rosé with a Saigné that was placed on top of an equal amount of fruit and allowed to soak and slowly start to ferment for several days. This was then pressed and transferred to neutral barrels. As we have always done, the 2017 LPR was fermented to dryness with malolactic complete and bottled unfined and unfiltered.

tasting notes-

The 2017 Laughing Pig Rosé is an absolutely lovely expression of Pinot Noir. Tart little strawberries, wild cherries and fragrant raspberries welcome you into the glass. Unlike many other rosés the Laughing Pig displays creaminess both in the aroma and upon the palate. While red fruits spread languidly across your senses, acidity forms a loose structure tying the package together like a pretty ribbon. Although thoroughly dry, this rosé succeeds in evoking the juiciness of summertime nectarines, red berries and cherries as these flavors linger on the lengthy finish.

big table farm is the collaborative effort of brian marcy and clare carver
- we are a winemaker and an artist, we grow and produce what we love to eat and drink -

In 2006 we moved to Oregon from Napa, where Brian had been making wine for ten years. We started with a dream and made our first 150 cases in 2006.

Our Farm

We own and manage 70 acres in the northern Willamette Valley, where we raise animals and produce seasonal vegetables. If you visit us, you'll find free-range hens, pasture-raised pigs and grass-fed cows. We are building a managed intensive grazing system of farming that builds our soil, sequesters carbon, and moves us towards a healthy, sustainable and diverse farm.

Our Labels

The art on our labels is drawn by Clare and is unique to each vintage. The labels themselves are made by hand using a letterpress and thick printmaking paper. After each label is applied by hand we carefully wrap each bottle in tissue to preserve the letterpress paper's texture and beauty. There is a product code on the bottom of each bottle so you don't have to unwrap them to identify the wines.
